

MANUFACTURER'S RECOMMENDATIONS (CONT'D)

If dust is generated, wear a class P1 or P2 particulate respirator.
Ensure that respirator fits correctly.

FLAMMABILITY

This product is non-flammable, and does not support combustion of other material.

SAFE HANDLING INFORMATION

STORAGE & TRANSPORT

The product should be stored and transported in a manner to prevent ingress of water and admission of dust.

SPILL & DISPOSAL

Spills may be vacuumed or swept. Avoid generation of dust.
Collect spilled material and seal in clean dry labelled containers for disposal.
Clean up personnel should follow the precautions outlined under "precaution for use".

This product should be disposed of in accordance with requirements of local authorities. Keep out of sewer and stormwater drains.

The information in this document is believed to be accurate. Please check the currency of this MSDS by contacting this Company.

The provision of this information should not be construed as a recommendation to use this product in violation of any patent right or in breach of any statute or regulation. Users are advised to make their own determination as to the suitability of this information in relation to their particular purposes and specific circumstances. Each user should read the MSDS and consider the information in the context of how the product will be handled and used in the workplace including conjunction with other products.
